

PARTAIN'S NARWHAL'S NEWSLETTER

PROJECT BASED LEARNING

We are having a great time with our PBL on Native Americans! The students are learning about six Native American cultural regions through stations. Mrs. Livermont and I have a surprise for them at the end of this unit, and we will need a few parent volunteers. Please let me know if you are available during the day.

The PBL guidelines are on my Weebly site.

SCIENCE

We began our ecosystem unit last week. Students are still working through the vocabulary for most of this week. We will begin our playlist on Monday the 29th. I will post the playlist on my Weebly site for your reading enjoyment. :)

CLASS VISION

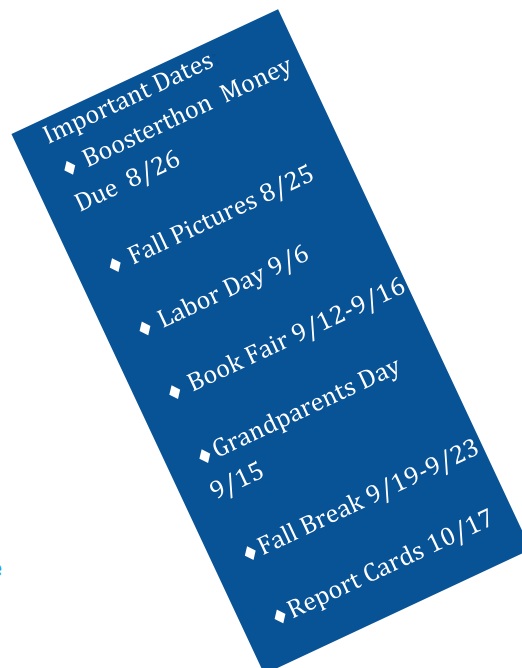

Through the students combined efforts, we have written our class VISION. Please check it out on the Weebly site. I am proud of the thought they each put into this!

Please check the WHALE binder daily for important communication from the school, PTO, or Mrs. Partain. Students write their homework and important news in their agenda each day.

Please do not hesitate to contact me if you ever have a question or concern. The best way to contact me is through email. I can generally answer you within a couple of hours. My email is: fpartain@henry.k12.ga.us

What are we learning in Math?

We are still working with our first math unit in place value. This includes writing numbers in their various forms, adding and subtracting larger numbers, and word problems. The students began their first playlist last week. I think they are really going to enjoy working at their own pace through the standards. If your child has technology that they can bring to school, they can use it during all playlists.
